CURRENT LIST of MEDICAL LITERATURE

VOL. 2 March 26, 1942 No. 13

SUBJECT GROUPS ACCORDING TO JOURNALS

1. Anatomy; Histology
2. Anthropology; Ethnology
3. Archeology; Paleontology
4. Aviation Medicine
5. Bacteriology; Parasitology
6. Biology; Embryology
7. Bone; Joint; Extremities; Muscle
8. Cancerology
9. Cardiovascular System
10. Chemistry; Physics
11. Dentistry; Stomatology
12. Dermatology
13. Diagnosis; Clinical Methods
14. Dietetics; Foods; Nutrition
15. Digestive System
16. Endocrinology
17. Forensic Medicine; Toxicology
18. Genetics; Eugenics
19. Gynecology; Obstetrics
20. Hematology
21. History; Biography; Bibliography
22. Homeopathy; Osteopathy, etc.
23. Hospitals
24. Immunology; Serology
25. Industrial Hygiene; Sociology
26. Infectious Diseases; Epidemiology
27. Medicine
28. Metabolism
29. Military and Naval Medicine
30. Miscellaneous
31. Neurology; Psychiatry
32. Nursing
33. Ophthalmology
34. Otorhinolaryngology; Phoniatry
35. Pathology
36. Pediatrics; Child Welfare
37. Pharmacology; Pharmacy
38. Physiology
39. Psychology; Mental Hygiene
40. Public Health; Sanitation
41. Radiology; Phototherapy
42. Respiratory System
43. Surgery; Traumatology
44. Therapeutics
45. Tropical Medicine
46. Tuberculosis
47. Urology
48. Venereal Diseases; Sexology
49. Veterinary Medicine
50. Zoology

Privately published under the auspices of the

EXECUTIVE COMMITTEE OF THE

FRIENDS OF THE ARMY MEDICAL LIBRARY

Washington, D. C.

THE EXTENSION OF THE LOAN SERVICE OF THE ARMY MEDICAL LIBRARY TO INCLUDE PHOTODUPLICATION FOR ARMY HOSPITALS

Through the offices of the Executive Committee of the Friends of the Army Medical Library, and by an arrangement made with the Librarian of the Library, Medicofilm Service has extended its facilities without charge to Army General Hospitals and the larger Station Hospitals. This in effect, places the latest medical journal literature promptly at the disposal of medical officers stationed at these hospitals with a minimum of effort. Journal articles will be filmed in any number desired on receipt of the proper references. Titles of recent articles may be obtained by consulting the Current List of Medical Literature which is issued weekly. A copy is now sent to the more important Army Hospitals every Thursday. Films will be sent out as strips and will be mailed within a day or two of the receipt of a request. After use, They should be filed for future reference, so as to avoid duplication of effort. A suitable reader for the film is necessary and two of these which are satisfactory and immediately obtainable, have been recommended by Medicofilm Service. One reader sells for $37.50 and the other $72.00. The service offered should be considered as a part of the interlibrary loan service between the Army Medical Library and the Hospital Library concerned. Applications for films should be approved by the Commanding Officer of the hospital or by his order, and they should emanate from the Librarian of the Hospital Library and not from the individual officer who desires the films.

Anyone who doubts the value of the microfilm when the original material is unavailable, as in the case of unbound journals, should consider that the Army Medical Library through its film service and at the request of the American Bureau for Medical Aid to China, is now microfilming, extensively, recent medical literature for Free China. Each of the fourteen centres which are important to medicine in China will receive film copies of more than 60 periodicals. This will shed some medical light upon long suffering China whose literature of the healing art was long ago bombed out of existence. It is expected that this extended filming project will require a number of months for completion.

In addition to the filming just mentioned, tentative proposals along the same lines have been received from Bombay, Calcutta, Jerusalem, Syria, and Algiers. All of these areas have had their medical literature seriously restricted and are looking to the United States for help.

H.W.J.

CURRENT LIST OF MEDICAL LITERATURE is published weekly and lists of RECENT BOOK ACQUISITIONS are issued several times per year as supplements. The subscription price for both is $5.00 per year in the United States and $5.50 per year in other countries. The Recent Book Acquisitions may be obtained separately at $1.00 per year.
